

REMINDER - TOMORROW IS PARENTS EVENING
SCHOOL FINISHES EARLY 1.00/1.10pm (as per start times)

Welcome Back

We trust that you all had a lovely Easter break and enjoyed the sunshine - as well as some chocolate of course! We are hoping that as the term moves on towards summer, a greater degree of normality will resume. However, as things are still so uncertain at present, we will keep you posted with any events or changes of dates with as much notice as we can. We hope you understand.

Parent Survey

Please can you take a few minutes to complete our online parent survey. The questions should only take a few minutes to answer and your feedback is incredibly important to us. The survey will be open for the next two weeks and will close on Wednesday 5th May.

Please click on the link below:

https://forms.office.com/Pages/ResponsePage.aspx?id=HVyXAbWG+kSN_jgqVK1qhvkpDS4xoKdCvLEOuQ_URAdUMEFMMUdLUIJMOEpSUkxUMko2NThZWjRUUS4u

Enquiry Webs

All year groups have just launched their new enquiry this term. Everything they will be learning about is detailed on the website under our curriculum section.

Please visit: https://www.redoaks.org/enquiry/36_summer21/01.php

Homework

Homework will be sent out soon for the coming term. The creative side of the homework is celebrated in school during the last week of each term. Please try to hear your child read as often as possible and record this in the home/school contact book. Spellings will be tested weekly.

Values Based Education

As you know, at Red Oaks values education underpins all that we do. The value this term is RESPECT. Please visit our values section on the website to see what we are learning. <https://www.redoaks.org/values.php>

Well done!

Thank you to everyone who has supported Mrs Storey who has been fundraising for Macmillan and has so far raised a grand total of £1,229.00. Mrs Storey will be walking a marathon for this great cause.

Classroom Secrets Kids

We hope that you have been enjoying using Classroom Secrets Kids? We have had some really positive responses so far from those who have used it. At school we are running intervention groups and will be offering

tutoring to help support those children close the gaps on any areas of learning that they need. However, as you can appreciate this is a big job and Classroom Secrets Kids is a brilliant way to help continue this learning at home and support your child to close any gaps that they may have.

The programme is developed to assess your child's knowledge using a weekly quiz, it then will adjust the learning offered to them based on the answers to the questions they have given. The learning assigned to them can take many forms, these can include tutorial videos, challenges and online games. The children should then be able to progress through the work and show improvement through a short quiz at the end. This is something that the children have been introduced to at school and should be able to access independently at home. Your child's teacher will look at what assignments have been completed and adjust what is set accordingly. If you have any questions about Classroom Secrets Kids, please speak to your class teacher.

Online Safety - Clubhouse

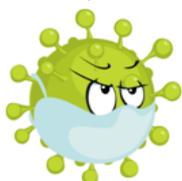

Clubhouse is an audio-only social media networking app that is currently available only to Apple users. The app encourages conversation between users, in various rooms discussing topics from the serious (health, sports, cryptocurrency, etc) to the more frivolous (favourite cereals, corniest jokes and so on). Clubhouse is like an interactive podcast that allows real-time two-way communication. The app is still in beta-testing stage and is invite only - you can only join if someone sends you an invite.

In the guide, you'll find tips on a number of potential risks such as adult content, no age verification and insufficient safety protocols.

School Bags

School bags seem to be growing in size again and some children look as though they may be going on holiday for a few weeks!! A polite reminder that only essentials are needed to be brought in daily. This requires a small and preferably flat book bag. PE kits are to be brought in draw string bags that should be left at school all week please. Our locker/cloakroom space is very limited and large bags are causing an issue. Only children who cycle or scoot to school should require a rucksack please; this has always been the case. Thank you for your support with this.

Pick Up and Collection

We politely request that only one adult per family collect children from school and that everyone wears a mask or face covering please.

Year 6 Leavers Hawaiian Party - 30th June

Thankfully, this year we will be able to celebrate our Y6 children moving on to pastures new. The children were all super excited when I talked to them about the leavers party and have decided on a Hawaiian theme with a BBQ and bouncy castle. We really want the children to just enjoy this time being together so there is no need for any of them to feel pressure to dress in a certain way. The Hawaiian theme is just an idea and something they can do if they want. The staff are all very excited to be able to have this send off for them. Thank you to FORO for organising.

Up Coming Dates

22/4 Parents Evening - school closes at 1.00/1.10pm (as per start times)

29/4 School Class Photos

30/4 TD day - School is closed

3/5 Bank Holiday

11/5 Bags2School

What Parents & Carers Need to Know About

CLUBHOUSE

17+

App Store Rating

Clubhouse Drop-in Audio

Clubhouse is an audio-only social media networking app that is currently available only to Apple users. The app encourages conversation between users, in various rooms discussing topics from the serious (health, sports, cryptocurrency, etc) to the more frivolous (favourite cereals, corniest jokes and so on). Clubhouse is like an interactive podcast that allows real-time two-way communication. The app is still in beta-testing stage and is invite only – you can only join if someone sends you an invite.

Fear of Missing out

Clubhouse's exclusivity has created significant curiosity and FOMO ('fear of missing out') among internet users still awaiting their invite. Many have turned to Reddit forums and social media for a way in. Scammers are exploiting this excitement: there have been people with the same username selling invites on different platforms. This is a red flag, since any one person only gets two invites to use.

Lack of Moderation

Clubhouse wants to be a safe environment for its users and aims to assign a moderator to every room. However, as users are able to create their own rooms at will, it is hard to see how all of these could be appropriately moderated. Hence, a young person listening in could easily be exposed to adult language or comments that could be deemed offensive.

Recorded Conversations

There has been no evidence to date of Clubhouse conversations being leaked onto the wider internet. But the possibility cannot be dismissed that someone could easily record a conversation and then circulate it online. This would become a problem if a young person used their real name on the app and discussed a potentially sensitive issue in any of the rooms.

No Age Verification

+18

The app is targeted at users aged 18 or over. However, there is no age verification system in place (as yet), so anyone under 18 could easily join the app if they received an invitation. As Clubhouse encourages forthright discussion among adults, a young person signing up to the app would be highly likely to hear vigorous discussions of age-inappropriate subjects.

Insufficient Safety Protocols

Although the app condemns hate speech and online abuse – and is working hard to keep these off the platform – there have been some safety concerns about Clubhouse. The speakers in some rooms, for instance, have been found to be taking advantage of the lack of moderation to incite hate against minority groups.

Accidental Exposure

There are three types of room: open (anyone can join), social (only for someone's 'friends' on the app) and closed (the room creator decides who is allowed in). A child could easily be invited to join rooms by their friends or by someone they follow. This may result in them accidentally joining rooms that aren't age appropriate. There is currently no way to prevent this from happening on the app.

Advice for Parents & Carers

Use 'Closed' Rooms

If your child is determined to use Clubhouse, emphasise that – in privately created rooms – they should only chat with people who they actually know. When creating their own chat room, encourage them to always set it to 'closed' (so only they can decide who can listen in or join the conversation) and don't allow strangers to have access.

Block or Report

Even as just a listener you can block someone or report them for abusive behaviour. If your child comes across a speaker in Clubhouse that is being offensive or abusive, then encourage them to block and report that user. It's good practice to always walk your child through blocking and reporting on any app with those facilities, giving them a method to protect themselves.

Emphasise Digital Etiquette

There are no text-messaging or image-sharing options currently available on Clubhouse; speakers whose presentation needs a visual element change their profile picture as a way to show the image. But it is still possible that conversations (even in private rooms) may be recorded by another user. Remind your child of the importance of maintaining good digital etiquette and behaviour.

Avoid Linked Social Media

When creating a profile, users can link it to their Twitter or Instagram account. Many people have used this to then connect with or message others users directly. You can protect your child's personal information by keeping any other social media accounts they might have separate from Clubhouse. This will reduce the potential of a stranger privately messaging your child away from the app.

Talk about the App

Clubhouse is for over 18s. So if a young person really *does* want to use the app, assess whether they are mature enough to handle some of the conversations they might encounter before allowing them to download it. Prevent them being misinformed by encouraging them to research the speakers they follow – making sure that they are credible people who are qualified to present on a particular topic.

Explore It Yourself

If your child is interested in Clubhouse, perhaps the best way to understand how the app works, and its format and content, is to download it yourself before they do. Trying the app will help you to decide if it is appropriate for your child to use. If you're not happy that it's suitable, explain your reasoning to your young one and possibly cooperate in researching more child-friendly alternatives.

Meet Our Expert

Parven Kaur is a social media expert and digital media consultant who is passionate about improving digital literacy for parents and children. She has extensive experience in the social media arena and is the founder of Kids N Clicks: a web resource that helps parents and children thrive in a digital world.
